About Me

Passionate Full-stack developer and UI/UX Designer with a Computer Science degree. Skilled in development technologies such as HTML, CSS, Python, React,Postgresql and Django REST Framework, user research, wireframing, and prototyping. I quickly adapt to new technologies and workflows.Aim to solve user problems, enhance experiences, and optimize interfaces—transforming research into innovative solutions.

Skill

Development technologies: Python, JavaScript, HTML, CSS, SQL,Django
Libraries and Frameworks: React, Django rest framework, CSS Tailwind
Databases and other: PostgreSQL, RESTful Routing, Postman, Git & GitHub
UI/UX Design: User Research, Product Design, Wireframing,Design System, Prototyping

Experience

SDA x General Assembly Software Engineer Bootcamp - 480h

Final project readme file   *aug 2025 - nov 2025*

- Developed a full-stack solo project using Django REST Framework
- Implemented authentication with Simple JWT.
- Built and tested APIs using Postman.
- Created the frontend using React and Tailwind CSS
- Used PostgreSQL for data storage and management
- Integrated frontend and backend for real-time data flow
- Built a portfolio using HTML, CSS and Javascript - **click to view**
- Built a bank system using Python and PostgreSQL

Cradis Design System – Design Tokens Bootcamp, intern 94h   *apr 2025 - Jul 2025*

- Built scalable design tokens using Figma variables.
- Created a consistent naming system across colors, borders, spacing.
- Tested tokens across components for responsiveness and clarity.
- Documented the system for team-wide use and handoff.
- Convert variables. into JSON code then from JSON into CSS code to delivery to the developer.
- .Built design system for components for more consistency.

Cradis UI/UX Design Boostcamp, **intern** - **140h** **click to view**   *sep 2024 - Jan 2025*

- Research & User Insights Collection:Conducted research, interviews, surveys, user feedback
- Data Analysis & Problem Identification:Analyzed data, identified pain points.
- Design Wireframing & Feature Enhancement:UI Design & Design System Development:
- UI Design & Design System Development:Developed UI designs, established design systems for consistency.

Eduction

- Bachelor :Computer Science from King Faisal University   *sep 2017 - jan 2023*
- SDA & General Assembly   *aug 2025 - nov 2025*

Language

- Arabic - Fluent
- English- Advance
